The following general guidelines are followed in determining qualifying service under the three categories outlined 25X
(a) All service outside CONUS qualifies as hazardous duty, but actual hazards must be shown to exist in assignments.
(b) There is a predisposition to recognize the need to practice 25) stringent security and covert tradecraft procedures in assignments under non-official cover. Such need is however questionable in assignments under official cover.
(c) Inability to describe experience is not applicable if the general nature of the duties may be described even though the details of the actual work performed are highly classified.
The Retirement Board is receiving a substantial number of requests involving service which clearly does not meet the above criteria.
Mr. Bannerman asked that Office Heads provide him with their honest opinion regarding the merits of each request being forwarded for his review.
8. Mr. Bannerman announced the following results of the last Deputies' Meeting:
OTR's recommendation that Academic Training be approved at the Directorate level rather than by the Training Selection Board has been approved wit the understanding that Deputy Directors or Assistant Deputy Directors will approve without further delegation.
The training course was approved with several recommendations for expansion of coverage.
Inter-Directorate rotation at the GS-14 and GS-15 level was discussed and each Directorate offered names of candidates. The Director of Personnel is to come up with a plan within thirty days to rotate two officers from each Directorate.
Colonel White directed that useful full-time employment must be assured for summer employees.
Mr. Bannerman withdrew his request for bids from other contractors f operation of the cafeterias. Self-bussing will be instituted in the main cafeteria.
